

a user input/output device comprising a display for displaying the video and an input device for selecting a position on said display;

a browser arranged for connecting said user input/output device to said first content server;

Bi at least one hyperlink and content reference cross-referenced with coordinates indicating where the at least one hyperlink appears in the video stored in said first content server, said coordinates including display position and time during the video, and said content reference indicating a second content server comprising an electronic document to which the hyperlink is linked;

means for determining when said hyperlink is selected by determining when coordinates at which the hyperlink appears in the video are selected; and

means for switching over a connection of said browser from said first content server to said second content server for user access to said electronic document in said second content server when said means for determining determines that said hyperlink has been selected.
